REQUISITIONS FOR ADMISSION.

Candidates for admission into the Freshman Class are examined in the following, or equivalent studies :—

English Grammar, Geography, Arithmetic, Algebra (through four chapters, Day), Andrew's and Stoddard's Latin Grammar and Reader, Andrew's Latin Exercises, Cæsar (four books), Virgil (six books), Cicero's Orations, Bullion's Greek Grammar and Lessons, Bullion's Greek Reader, Latin Prosody and Mythology.

Candidates for a higher standing are examined in the same studies, and also in that part of the course gone over by the class to which they may desire admission.

All students must bring satisfactory testimonials of good moral character ; and those from other colleges, certificates of dismission in good standing.

Thorough acquaintance with the studies required for admission, is indispensably necessary in order to receive the full benefit of the subsequent College course. It is found by experience that students imperfectly prepared for the class they enter, are embarrassed in their further progress, and seldom repair the want of proper preparatory study.

Anthon's Classical Dictionary, Smith's Grecian and Roman Antiquities, and Butler's Ancient Atlas, are used for reference by the Classical Student throughout the Course.

The members of the Senior Class deliver orations before the Faculty and Students throughout the year. Greek and Latin Composition will be attended to during the first three years of the Classical Course. Dictation, Declamation, and Composition, in the French and Spanish languages, will be attended to throughout the whole Scientific Course. Chemistry is taught by recitation and lecture, accompanied with experiments. Regular lectures will be delivered by the President and Professors, upon subjects connected with their several departments.

Other charges the same as in College. In addition to the regular charges, a matriculation fee of $5 is paid by each Student, on first becoming a member of any regular College Class. College charges must be paid semi-annually, in advance.

Board and Washing can be had at the Steward's Hall, or in private families, for from $12 to $15 per month.

PRACTICAL INSTRUCTION.

One great object of the instructor should be to make the scholar practical as well as theoretical. Much is left for the teacher to supply which is not found in the text-books. There is much valuable information which can only be obtained by oral instruction, by experiment, and practice. With this view, all Recitation and Lecture will be rather practical than theoretical, and the Theodolite, Compass, Sextant, Telescope, etc., will be employed by the professor in actual observations and surveys; thus properly enforcing and illustrating Mathematical and Philosophical principles, by application.

LIBRARY.

The College Library contains about 3,000 well-selected volumes, of both Ancient and Modern Literature. The importance of such a library to the reading student, during his Collegiate Course, is too obvious to need remark. The library is accessible to all students.

APPARATUS AND CABINET.

The College possesses a valuable set of Philosophical, Astronomical, and Chemical Apparatus, and also a well-selected Mineralogical and Geological Cabinet. The apparatus includes a new Reflecting Telescope, (focal distance, 7 feet,) a Theodolite, Sextant, Compass, Chronometer, Atwood's Machine, Whirling Tables, Electrical Machine, Air-Pump, Steam-Engine, various combinations of the Mechanical Powers, Batteries, Chemical Tests, etc., sufficient for a thorough and extended course of observations and experiments.

ALUMNI ASSOCIATION.

There is an annual meeting of the Alumni Association on Tuesday before the last Thursday in July.

LITERARY SOCIETIES.

There are two regular Literary Societies connected with the Institution. These are of great utility to young men acquiring a liberal education—improving them in the art of public speaking, making them in some degree familiar with the proceedings of deliberative bodies, and in cultivating sys-

tematic business habits. Each Society has a convenient hall and a well-selected library—about 1,600 volumes each.

There is a Joint Exhibition of the two Societies on the first of March, and an Anniversary Exhibition on Tuesday and Wednesday next preceding Commencement.

There is also connected with the Institution a Society, the object of which is to aid its members in the acquisition of the French language. The exercises of this, the Lafayette Society, are conducted exclusively in French; and they have, we believe, proved eminently successful in the promotion of the object for which the Society was established.

The Annual Exhibition of the Lafayette Society is held on the 19th of April.

REPORTS.

Bi-monthly Reports are transmitted to the parent or guardian of each student, showing his scholarship and general deportment.

PREPARATORY DEPARTMENT.

In this Department regular hours of *Study* and *Recitation* are observed under the *immediate* supervision of the Principal. In other respects the members of this Department are subject to the same general regimen and requisitions as the College student. The studies in this Department are arranged and taught with special reference to a preparation for College. Public declamation monthly. An exhibition of select declaimers on Monday night before Commencement. In this Department, any student not intending to complete a full collegiate course, may obtain a thorough English or Commercial education.

EXTRACTS FROM THE STATUTES.

CHAPTER VI.—*Religious Exercises.*—The exercises of every day shall be opened and closed with prayer by the President or some other member of the Faculty, when all the students shall attend.

2. The students shall attend Divine Worship in the College Chapel or elsewhere every Sabbath.

3. The due observance of the Sabbath is earnestly recommended, and all practices inconsistent with the reverence due to the day are expressly prohibited.

CHAPTER XII.—*Of Commencements, Sessions, Examinations and Vacations.*—There shall be an Annual Examination, commencing on the second Monday preceding the last Thursday in July, which shall be Commencement Day.

2. The regular Academic year shall begin on the first Monday in October of every year.

3. There shall be a vacation from the 24th of December to the 1st of January, and from Commencement Day to the first Monday of October in each year.

CHAPTER XIII.—*Of Expenditures.*—Every student whose parent or guardian does not reside in Jackson, or immediate vicinity, shall have an academical guardian, nominated by himself, with the consent of his parent or legal guardian, whose duty it shall be to take charge of the expenditures of such student, and with whom shall be deposited such a sum of money as his parent or guardian may think proper. In the article of pocket money, the strictest economy is most earnestly recommended and requested.

N. B.—The requirements of Chapter XIII above, will be strictly enforced.

GENERAL INFORMATION.

This College was taken under the patronage of the M. E. Church, South, in 1845, and has been constantly growing in importance and usefulness. It is located in the village of Jackson, about twelve miles from Bayou Sara, in a grove of pine, magnolia, oak and beech. The location is remarkable for its beautiful woodlands, its bland and delightful atmosphere, its pure water, and its unrivalled healthfulness.

The government is mild and parental, but consistent and firm; if a student is found to be incorrigibly vicious or idle, he is at once dismissed. The punishments consist of demerit marks, private reproof, public reproof, and suspension. The rewards consist of merit marks, and public honors on the day of Commencement. So that by every incentive—by appeals to all the nobler principles of the nature—by affectionate entreaty and friendly counsel—by the hope of distinction and the fear of disgrace—the Faculty endeavor to maintain order and the purest morality.

The Board of Trustees, in carrying out the original design of the State, have completed a large centre building between the present Dormitory Buildings—thus making in perspective, one continuous front of about seven hundred feet. This building has been erected at an expense of over sixty thousand dollars. It contains a Chapel for public exhibitions, large enough to seat over two thousand persons; two large Literary Halls, a Chapel for prayers, eight commodious Recitation rooms, one Library room, Cabinet room, separate rooms for Chemical and Philosophical Apparatus, an office and other rooms for other purposes. In magnitude and architectural beauty, it is a monument to Southern liberality and Southern taste.
